

CASE 0780504 EVIDENCE REPORT

EVIDENCE — Inscribed Bone

Investigators recovered a dead man's bone at the scene. We can be certain the bone was left by the perpetrators but no fingerprints or biological residues are identifiable at this time.

The bone is inscribed with a message to "Zak," presumably Zak Sealed, the lead act at the Rialto on the night of the crime. The inscription reads,

Love the new album, Zak. Don't forget where we started. RG

Zak claims he does not know of any current or past connections to any person who could be a suspect. He is in custody and remains fully cooperative at this time.
